**Where:** Agriculture College of North Jutland

**Host:** Danish Agricultural Colleges

**Themes:** Promotion of modern  
Agricultural Education

**New types of young people coming into  
the profession and education**

**New types of agricultural teachers**

**Joint Course 2009 – preliminary program**

**Promotion of modern agricultural education  
(in the context of how things are changing for the  
time in agriculture and how do we strengthen the  
students' awareness on agriculture and climate  
change)**

**New types of young people coming into the  
profession and education in agriculture  
How to make agricultural educations more  
attractive**

**New types of agricultural teachers  
How to make it more attractive to become an  
agricultural teacher**

JC 2009 -

Will also include a "poster" sessions on the fringes of the course.

These would consist of a summary presentation (diagrams etc.) of the agricultural E & T (education and training) systems in the individual participating countries.

One delegate from each country could take responsibility for this and be present at the poster/stand during session breaks and at the end of each day – to take questions and explain if necessary.

This would be a way of giving everyone a chance to learn the agricultural E & T in each of the other countries – without taking up time in the course sessions.

JC should be a forum for discussion of education and networking on a high level

It is a strength to be at this high level focusing on strategical objects.

According to the headlines above, the following items are also were also highlighted

2015 – Drama or possibility

Relations to world food shortage problem

Differences between agriculture, horse breeding, animal care etc.

Where do we find enough numbers of students

Shortage of food and milk quota

Will food be a political factor (weapon??) in the future?

Food will be something to fight about?
